

2008 First Quarter Sales: 239.3 M€(+14.4%)

In line with expectations, first quarter sales record solid growth compared to the same period last year.

Leisure vehicles

Sales of motor caravans posted a strong increase (+16.0%): the improved manufacturing conditions of show models, that were affected at the beginning of the previous financial year by insufficient availability of wheel bases and components, allowed the delivery of showroom models to the dealers network in adequate quantities.

Sales of touring caravans (+1.9%), of accessories for leisure vehicles (+8.0% of which 4.1% organic), and of static caravans (+84.5%) are also well oriented.

Leisure equipment

Given that camping equipment (+62.1%) and Garden equipment (-0.1%) activities are in low season, their performance in the first quarter is therefore not significant. Sales of trailers (+14.5%) maintain a strong growth pace, as in the previous season.

Additionally, Trigano's activity in the 2008 first quarter has had no substantial impact on its financial structure.

Prospects

After a promising start of financial year, Trigano maintains its sales target for 2008 (1 billion euros, +7.0%). In parallel, profitability should be enhanced thanks to the increase of the activity, to the improvement of productivity and to the non-recurrence of issues that affected the 2007 financial year.

2008 first-semester sales will be disclosed on March 25, 2008
